DAY 3

6 JUNE, 2019

WORKSHOPS AND EXHIBITION

08:00 - 09:30

Investor Breakfast with Minister

09:30 - 11:30

Workshops : Angola Oil & Gas introduces a workshop morning gathering industry experts covering a range of topics that will provide more in-depth, practical and technical knowledge about several key aspects of the new stage of development of the Angolan oil and gas industry. Attend our special workshop day and watch presentations on the following topics:

- PSA and PSC Regime in Angola - details and technicalities of the PSA and PSC structure in Angola for deep offshore, offshore, onshore and marginal fields.
- Local Content and Skills Gap - Local content law specifics, the role of local training institutions like the National Petroleum Institute and the Agostinho Neto University, and the paths to development of Angolan companies within the oil and gas sector. International companies in the country will share their experience in complying with local content laws and practices.
- Service Companies Certification - Ministry of Mineral Resources and Petroleum and the CAE (Business Support Centre) provide details on how local and international companies can obtain certifications for their activities in the country, and the importance for such certifications for operating in Angola.
- Corporate Social Responsibility - details on the CSR law, experiences shared from companies operating in the country with successful CSR programs and presentations made by local institutions and programs in need of support.
- (Additional workshops TBD)

11.30 - 12:00

Conference Closing Speeches
