ANGOLA OIL & GAS 2019
LUANDA, ANGOLA
CENTRO DE CONVENCOES TALATONA (CCTA)
Africa Oil & Power is proud to announce that it is organizing the first Angola Oil & Gas 2019 Conference and Exhibition, to be hosted June 4-6, 2019 in Luanda. Officially endorsed by the Ministry of Mineral Resources and Petroleum of the Republic of Angola, the conference will be the elite energy event for one of Africa’s premier oil and gas markets. The conference will gather key government officials and C-level executives spanning the spectrum of the energy industry for keynote presentations, moderated panel discussions, exhibitions, networking gatherings and investment facilitation.

The event will put a premium on dealmaking and relationship brokering as Angola aims to attract investment spanning its energy value chain. With a production of 1.6 million barrels of oil per day, Angola is the second-largest oil producer on the African continent and has been a member of OPEC since 2007. Under the new political leadership of H.E. João Manuel Gonçalves Lourenço, President of the Republic of Angola, and with oil prices stabilizing, Angola’s oil and gas industry, based on its proven deep-offshore reserves, has once again become a highly attractive investment destination.
The investment climate in Angola under the new leadership of H.E. President João Lourenço and the Minister of Mineral Resources and Petroleum, H.E. Diamantino Pedro Azevedo.

The role of the new National Oil and Gas Agency and the privatization of some of Sonangol subsidiaries.

Acquisition of new licenses and continued exploration and development of the offshore basins.

Angola’s 2019 licensing round and its push to attract small and mid-cap oil and gas companies to near-shore and marginal field acreages.

New marginal field legislation and strategies.

Strategies and challenges for reversing oil production declines and the potential for onshore developments.

The role of liquified natural gas and gas-to-power projects in the future of the country and the challenges for the development of greenfield and brownfield downstream projects including the Cabinda and Lobito refineries and the expansion of the Luanda refinery.

Advances made in local content legislation, practices and enforcement, and many more.

Building a new generation of Angolan oil entrepreneurs.
Africa Oil & Power (AOP) is the continent’s premier platform for energy investment and policy. With a heralded series of energy events, AOP brings together an elite class of ministers, senior level government officials and top executives of private sector companies spanning the energy value chain, including upstream, downstream, engineering, construction, services, consulting, power generation, legal and finance.

**PRODUCTS & SERVICES**

Regional and national energy and finance conferences.

Government and market consultancy.

Investment outreach (licensing rounds, roadshows, press conferences).

Strategic communications.

**OUR MISSION**

To enable investment in Africa’s energy industry, the world’s most underexplored, under-developed and overlooked region.

To empower Africa’s indigenous companies through a platform that promotes leadership, national content, technology and entrepreneurship.

To create the most engaging content experience from the industry’s biggest power brokers.
AFRICA ENERGY SERIES
ANGOLA 2019

The Angola Oil & Gas Conference and Exhibition will be accompanied by the production of Africa Oil & Power’s first full report of Angola’s energy sector. Titled Africa Energy Series (AES) Angola 2019, the report is designed to be the most comprehensive publication Angola’s energy leaders, resources, main actors and future potential.

AES Angola 2019 will be launched during the Angola Oil & Gas conference and exhibition on June 4 - 6, 2019, in Luanda. Will serve as an essential tool for investors and an important milestone in the nation’s development towards sustaining its role as one of the main oil producers on the African continent.

AES FEATURES

Interviews with the main actors of the petroleum and power sectors of Angola, including the Minister of Mineral Resources and Petroleum, H.E. Diamantino Azevedo.

Unique resources, including time-lapse maps of acreage exploration and development, key industry figures and data showing opportunities and challenges for investors.

AES Angola 2019 will be an essential investment tool which will be used by the government and private sector companies.

The initiative celebrates the potential of the petroleum industry in building a stronger nation.

Focus on the offshore potential of Angola, the prospects for new power generation projects, the maximization of local content policies and the strengthening of indigenous companies.

DISTRIBUTION

- Indigenous regional and national exploration and production (E&P) companies
- All Angolan energy-related firms
- International E&P companies
- Oil and gas majors
